

PERSONAL INFORMATION:

NAIF MOHAMMED SABAAN, MARRIED, Data Center Manager,

RIYADH, KSA

MOBILE: + 966-5839-884-39

EMAIL: AS88SA2@GMAIL.COM, AS88SA2@HOTMAIL.COM

OBJECTIVES:

Obtaining a Full-time Position in the Field of Information Technology. Since, I Have a Work Proficiency, which **Exceeded 10 Years of Experience**. I Am Very Excited to Learn More About This Opportunity and Share How I Will Be a Great Fit for Your Corporation. I Am Aiming to Get a Challenging Position at IT Infrastructure Managerial level to Help Establishing and Implementing best practice for IT Auditing in Networks, Network Security, Systems and Data Center Combined with Information Security International Standards to Gain the Next Generation Resilient in IT Infrastructure, which help A Company Achieve Their Business Goals.

Personality: Team Leader, Initiative maker, Decision maker, IT PMO, CAP Meeting member

EDUCATION:

- ROGER WILLIAMS UNIVERSITY, RHODE ISLAND, USA Dec 2012
 - o BACHELOR OF SCIENCE IN COMPUTER INFORMATION SYSTEM

COURSEWORK: Computer Applications in Business; Introduction Personal Hardware; Intro Computer Security Tech; Computer Penetration Testing; Network Design and Implementation; Security Techniques; Basic Programming (Java); Computer Forensics; Digital Thinking (Intro Pro Database Management); (Access, Mysql); Geographic Info System (GIS); Principle of Economics Professional Writing in English; Public Management; Business Ethics.

- RIYADH COLLEGE OF TECHNOLOGY, RIYADH, KSA SEP 2005
 - o DIPLOMA OF OFFICE MANAGEMENT

COURSEWORK: Introduction to Computer Applications; Business Management Principles; Secretarial Procedures; Principles of Economics; Office Organization and Management.

WORK EXPERIENCE:

- DATA CENTER MANAGER 2020-Present
 - o TGA: Transport General Authority
- SENIOR NETWORK AND NETWORK SECURITY ENGINEER 2017-2020
 - o TCC: Technology Control Company
- NETWORK SPECIALIST JAN 2013 - 2017
 - o TCC: Technology Control Company
- SECRETARY OF GENERAL MANAGER JAN 2006 - JULY 2007
 - o Saudi Lime Company
- TECHNICAL AND ADMINISTRATIVE SUPPORT JAN 2003 - SEP 2004
 - o HABCO

CERTIFICATION AND QUALIFICATION:

CERTIFIED:	ATTENDED:	RECOMMENDATION LETTERS:
PMP	Aruba Wireless Controller - AMBC	TGA: IT Director (Saleh Attoraqi)
CCIE: Enterprise "Written Exam"	Aruba ClearPass - NAC	TCC: IT Director (Saud Al Sayyari)
CCIE: Data Centre "Written Exam"	MCSA - MCSE	MOI: The Special Advisor of Minister of Interior General (Saleh AlJaloud)
ISO: 27001: Lead Implementer	CRESTOM: Management Skills	ALI AL-OBAID TRADING & CONTRACTING EST
Fortinet: NSE#4	MS Access: Advance Database	
Palo Alto: PCNSE	Visual Basic 6.1	
ITIL V4: Foundation	Fortinet: NSE#1,2,3	
HPE Aruba: Sales and Solution	eJPT	
ICDL	Nutanix Enterprise Cloud Admin	
	Malware Forensics	
	Microsoft FrontPage	

MEMBERSHIPS:

- Saudi Council of Engineering: Membership# 547497
- Project Management Institute: Membership# 6452179

Technical Proficiencies / Hands own experience:

HARDWARE:

- Routing: Experience: 3yrs
 - o **Cisco Router Model# (2600, 2800, ISR4431);** Initial Configuration, IPv4 Routing, EIGRP, OSPF, BGP, NAT. DHCP.
- Switching: Experience: 3yrs
 - o **Cisco Switch Model# (2950, 2960) Catalyst (6880);** Initial Configuration, STP, VLANs, VTP, Port Channels, Port-Security, ACLs, SUBNET.
 - o **FortiSwitch1048E, FortiSwitch424E;** Initial Configuration, STP, VLANs, VTP, Port Channels.
- Cisco UCS: Experience: 1yr
 - o **Cisco IP Telephony;** Initial Configuration, Manage Call Manager, Manager Users, Create Codes, Backup, Restoring
- Link Controller Load Balancer: Experience: 1yr
 - o **F5: Model# (BIG-IP-LC-2600)**
 - o **A10: Model#Thunderbolt3300**
- Wireless Controller: 1yr
 - o **Wireless Controller: Aruba Model# (7030),**
- CCTV: NVR: 2yrs
 - o **Initial Config, Permission, Privileges, Backup, Reporting Data**
- NAC: 1yr
 - o **Aruba ClearPass: implementation on Switches and Wireless Connection, Operation**
- Load Balancer:1yr
 - o **ForitADC1000F**
- Hyper Converged Solution-
 - o **Nutanix 3060, 8000 series**

SECURITY APPLIANCE: EXPERIENCE: 3YRS

- o **Fortinet: FortiGate Firewall Model# (1500D, 101F-601E-1101E);** Initial Configuration, Initiate Reports, IPv4 Policy, VPN-SSL, VPN-Site-to-Site, Endpoint Control, Application Control, Antivirus, DNS Filtering, Web Filtering, IPS, IDS, Traffic Shaping.
- o **Palo Alto-Firewall: Model# (PA5260);** Initial Configuration, Initiate Reports, VLAN, Endpoint Control, Application Control, Antivirus, DNS Filtering, Web Filtering, IPS, IDS, Policy.
- o **Network Analyzer: (FortiAnalyzer, Firewall analyzer manageengine)** Network Security Logging, Analysis, and Reporting
- o **Sandboxing:** FortiSandbox
- o **Mail Gateway Projection:** Libra, Fortimail
- o **Patch and Vulnerability management:** ivanti
- o **EDR:** FrotiEDR

- **Micro-Segmentation:** Nutanix Flow
- **FIM: File Integrity Monitoring:** TripWire
- **PAM: Privileged access management:** Thycotic
- **DDI: DNS, DHCP, IPAM Security enhancement:** infoblox
- **Server Anti-Virus: Endpoint Protection:** Symantec, Kaspersky
- **Proxy:** Symantec

SOFTWARE/SYSTEM:

- **Windows:**
 - Windows 10, 11
 - Windows Server 2012 R2: Initial Setup/Configuration, DHCP Server Manage, DNS, Users Managing, Group Policy Configuration.
- **Microsoft office:** long period
 - MS Office 2019, MS office 365; Excel, Power Point, Access, Outlook, Word.
- **Microsoft VISIO:** 5yrs
 - Network Traffic/Shaping Diagram Designer; LLD/HLD Design
- **Firewall Management Centralization:**
 - Forti manager
- **IT Assets collector**
 - Lansweeper
- **Virtualization:** 1yr
 - VMware: V-EXSI
 - HyperV
- **VEEAM:**
 - Backup for win server, application, and data base
- **Manage Engine:**
 - application monitor – ad_audit plus – ncm – ad_manager – opmanager – mail exchange reporting – ad-self-service plus – Confi Backup – Firewall analyzer

OPEN SOURCES PRODUCTS:

- **LibreNMS:** PHP/MySQL/SNMP Based Network Monitoring, Support Hardware all Operation Systems
- **CACTI:** Network Monitoring and Graphing Tool Designed as a Front-end Application
- **NAGIOS CORE:** Monitors Systems, Networks, and Infrastructure
- **PMP-IPAM:** IP Addresses Management software
- **WIRESHARK:** Packet Capture Analysis
- **OXIDIZE:** Network Device Configuration Backup Tool
- **PRTG:** Network Monitoring and Graphing Tool Designed, link Monitoring
- **PGP Encryption:** Email Encryption
- **BitLocker:** hard disk, removable hard disk, USB and Folders/Files Encryption

PROJECTS Management /Project Involvement:

- **Project Management:**
 - o Data Center Migration: B1 to 2nd Floor
 - o IT Infrastructure upgrades
 - o IT Security Infra upgrades
 - o New Data Center Establishment
 - o Migrate MS Ex from Cloud to trusted cloud inside KSA
 - o Penetration Test for Ap
 - o incident ticket to multivendor; Cisco, F5, Fortinet, NCA, DEEM etc
 - o Migration Exchange: From Cloud Office365 to Trusted cloud inside KSA
 - o APT: Advanced Persist Threat
 - Implementing EDR on Workstations and Win Servers
 - Sandbox on Network Traffic
- **Migrating VMs from Nutanix old Chassis to New Nutanix Chassis**
- **Establishing a New Data center in Technology Control Company Jan 2013**
 - o Location: TCC building, Project Manager Assistant
 - Supervise/Report the Process of Building the DC
- **Establishing Server Room at MOI, May 2015**
 - o Location: MOI, Project Manager
 - Supervise/Report the process of Building the Server Room
- **Data Center Migration May 2021**
 - o Location: TGA, Project Manager
 - Planner
- **DHCP Server Migration:**
 - o Migration DHCP server from Core Switch to Windows Server
- **IOS (Firmware) upgrade for all network and security devices:**
 - o Checking all Network and Security Appliances' (Firmware) vulnerabilities, based on <https://www.cvedetails.com/> / <https://tools.cisco.com/security/center/publicationListing.x>.
 - o Categorize the Firmware Criticality: High/Low
 - o Update the Firmware in the Monthly IOS Report
 - o Report the Critical Firmware to the Team in the Network and Security Department.
 - o Working on Downtime announcement after listing down all affected Services to prepare for the New Firmware Upgrades.
 - o Plan the Firmware Upgrades, with Rollback Plan
 - o Upgrade the IOS in the appliance, Check the device/services availability
- **Network Isolation:**
 - o Isolate TCC Network from one of the sister company's networks physically/Virtually
- **TCC Data Center Migration:**
 - o Migrate the network component/appliance from 3rd floor (Old DC) to the new location in the 2nd floor
 - o Report/Arraignment/Design/Plan
 - o Getting Quotation from Vendors for Hardware/Civil Work/Cabling
- **TAHAKOM Data Center Migration:**
 - o Migrate the network component/appliance from location to another
 - o Switch the traffic from coming from antenna/microwave to MPLS Cloud
 - o Report/arraignment/Design/Plan
- **Reporting:**
 - o **Data Center/Network/Security Monthly Report:** Services/Devices Availability, Resources/Devices Utilization, DC. Power Consumption
 - o **Ticketing System Monthly Report:** Customers Cases/Tickets
 - o **Firewall Monthly Report:** Bandwidth Devices Utilization, Network Activity, Threat Activity, Tunnel Availability, VPN Activity, Incident Activity, Application Control.
 - o **IT Projects/Tasks Monthly Report:** Report all the IT Department Projects/Task, Assign Some Tasks to the Team, follow up with the team for updating each Project/Task.
 - o **SmartNet/Support:** checking all Network and Security Devices' SmartNet/Support Validation, Getting Quotations from Multi-Vendors, Apply the New SmartNet to the Appliances.
 - o **Office365 Security & Compliance**
- **Customers SPOC:**

- Tahakom Alshamel Company, Tahakom Investment Company, MOI-Ahwal, Amman-Project, (SLA) Saudi Academic Logistic
- **License and Support:**
 - Collecting/Renewal Devices License and support
 - Open a support ticket with vendors such as F5, Aruba, Fortinet, Cisco, Palo Alto etc.
- **Test-Environment:**
 - Part of a team to build a test environment out of the EOS-EOL Devices
- **Routers Hardening:**
 - Shutdown unused ports
 - Disable unused services: CDP, FTP, TFTP etc.
 - Disable unused management protocols: SNMP; HTTP; HTTPS; DNS
 - Replace SNMPv1 and 2, with SNMPv3
 - Disable Telnet, enable SSH
- **Switch Hardening: applying port security to avoid:**
 - DHCP snooping; Dynamic ARP inspection; STP looping; CAM TABLE overflow attack
 - Control Plane protection
- **VPN Site-to-site/SSL during covid19:**
 - SSL VPN For TGA Users during curfew
 - Create IPsec tunnel site-to-site: TCC to Ahwal, TCC to MOI, TCC to Interpol
 - Create SSL VPN: Over 500 employees TCC/TAHAKOM
- **DMZ:** Creating a new DMZ Zone and migrate all application to the DMZ zone and segregate application from Database
- **Load Balancer:** Creating a new LB Subnet and switch all traffic from going to real server IP to new LB subnet
- **Firewall Enhancement:**
 - User-ID Enable
 - Application-id
 - Web-filtering
 - Firewall Policy Enhancement/Filtering
 - Firewall Naming Scheme Enhancement
 - Firewall Routing/Natting Enhancement, Service Publishing over MPLS and Internet
- **Wireless Enhancement:**
 - SSIDs: Security Enhancement WPA3
 - MAC Address Authentication
 - Sing Sign ON
- **MFA: Multi Factor Authentication implementation on:**
 - VPN SSL (Remote Users)
 - Application
 - Windows Server
 - Office365
- **Compliances and Governance:**
 - NCA
 - FortiGuard
- Team Leader: Network, Network Security, System and Developer team
- Loki Scanner (Yara Rules) NCA requirements
-

CURRENT PROJECTS INVOLVMENT:

- **DR** Data Center Disaster Recovery
- **ISO** Information Security Standards: ISO 27001 Information Security Management Systems

LANGUAGE PROFICIENCY:

- Arabic: Mother Tongue; English: Advanced; German: Advanced Beginner
